

BODEGAS  
SÁENZ DE SANTAMARÍA

The wines from **Bodegas Sáenz de Santamaría** are the heritage of Don José Santamaría, who from a young age was deeply involved in the winemaking process and grew up surrounded by vineyards. These same wines are now ranked amongst the best in the region.

We understand that all great wines start with the vine. This is why we work the land with special care, together with a thorough selection of the grapes, searching for the best way to balance all the different elements which go to make up the wine.

We believe that  
each wine  
**should tell a story.**

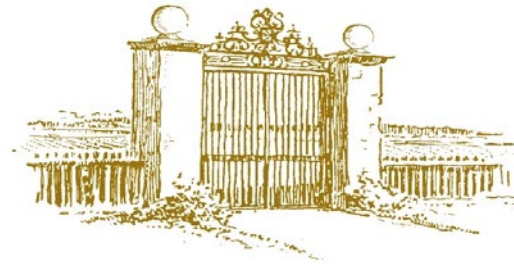

**These are pleasant wines endowed with freshness, soft and balanced full flavours.**

The young wines, reds and rosés made with great care, red and white Crianza (aged) wines, and the Reservas, all show a prolonged quality trajectory.
